Runway Incursions are at the very top of the list of FAA priorities. Learn about how to safely operate at busy metropolitan airports like MKE. Signs, markings, communication, and tower operations are just a few areas that will be discussed. MKE ATC personnel will be present. Pre register your attendance for wings credit at [www.faasafety.gov](http://www.faasafety.gov)

*Directions:* Park in Student Lot "C". Enter the Admin Building at the top of the hill. The Lecture Hall is just inside entrance No. 12. Campus security has been advised that there will be a public safety meeting that evening, and vehicles parked in lot C will not be required to have a parking permit.

*Message from the National Safety Program Manager:*
